

**Application Instructions**

**SHAKE WELL BEFORE USE!** Use at the rate of 20 ounces [one can] for up to 2,625 square feet (10 ounces [half can] for up to 1,300 square feet), applying in a sweeping motion at a speed of 1 foot per second. **DO NOT** apply more than 20 ounces per 2,625 square feet.

**Fleas:** Treat infested areas or potentially infested areas, including rugs, carpets, upholstered furniture, pet beds, pet resting areas, room edges, and around and under furniture or other stored items. Hold can at arm's length and direct spray toward the area to be treated. Use a sweeping motion to apply product and back away from treated area while holding the can 36 inches away from the surface being treated. An area of 80 to 100 square feet can be treated in approximately 10 seconds with this product. When treating upholstered furniture, treat under cushions and areas where flea development occurs.

**Bed Bugs:** Kills bed bugs. Apply where bed bugs harbor or are suspected of traveling. Treat areas such as wall junctions and floors, beneath floor coverings and carpets, closets, shelves, curtains, furniture (behind, under, and/or inside furniture, including upholstered furniture), headboards, picture frames, and box springs. Allow surfaces to dry before reoccupying treated area. When treating furniture (i.e. sofas and chairs), **DO NOT** apply to flat surfaces where prolonged human contact will occur. When treating mattresses, remove linens before application. Apply to edges, tufts, folds, sides, and seams. **DO NOT** apply directly to bed linens or other bed surfaces that come in direct, prolonged contact with occupants of the bed. Allow mattresses to dry before bed is remade and used. When treating luggage, apply only to empty luggage. Direct product into luggage pockets, seams, folds, and around wheels. Areas of rooms where luggage is stored may also be treated. Check for potential staining issues before treating by testing a small, inconspicuous area of the item to be treated. Reapply as necessary but not more than once a day.

**Ticks:** Apply to infested nonporous areas and egg laying sites or other nonporous areas where ticks are suspected.

**Conditions of Sale and Warranty**

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as environmental conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) BASF MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER'S EXCLUSIVE REMEDY AND BASF'S AND SELLER'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT, AND (C) BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.** BASF and the Seller offer this product, and the Buyer and User accept it, subject to these Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF. ## Precautionary Statements

### Hazards to Humans and Domestic Animals

**CAUTION: Contains Petroleum Distillate.** Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

### Physical or Chemical Hazards

**Contents under pressure. DO NOT** use or store near heat or open flame. **DO NOT** puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

## Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

## USE RESTRICTIONS

- Cover aquariums and fish bowls and remove birds from area prior to treating.
- Vacate areas to be treated, and **DO NOT** reoccupy or contact treated surfaces until dry.
- **DO NOT** apply in food/feed areas of commercial structures (i.e. food/feed handling facilities). In the home, cover or remove exposed food in the treatment area prior to application. Cover all food processing surfaces and utensils in the treatment area or thoroughly wash them before use.
- **DO NOT treat pets with this product.** Treat pets with a product registered for use for flea control on animals in conjunction with this treatment.
- When applying to mattresses, **DO NOT** apply to bed linens. Remove bed linens before applying. **DO NOT** apply to entire mattress; apply only to edges, tufts, folds, sides, and seams.

## STORAGE AND DISPOSAL

**DO NOT** contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store in a cool, dry area away from heat or open flame and inaccessible to children.

**Pesticide Disposal:** Wastes resulting from use of this product may be disposed of on-site or at an approved waste disposal facility. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representatives at the nearest EPA Regional Office for guidance.

**Container Handling: DO NOT** puncture or incinerate!  
**If empty:** Place in trash or offer for recycling if available.  
**If partly filled:** Call your local solid waste agency for disposal instructions.

### In Case of Emergency

In case of large-scale spill of this product, call:

- CHEMTREC 1-800-424-9300
- BASF Corporation 1-800-832-HELP (4357)

In case of medical emergency regarding this product, call:

- Your local doctor for immediate treatment
- Your local poison control center (hospital)
- BASF Corporation 1-800-832-HELP (4357)

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

## Product Information

This product kills fleas and prevents flea infestations for a full season. Adult fleas may be seen in the treated areas when brought in on infested animals or when adults emerge from pupal cases; however, populations will not develop in the treated area. This product may also be used to kill bed bugs and ticks by contact and aids in preventing bed bug hatch.

In transportation equipment, certain plastics may be whitened or dulled. Apply only to carpets and cloth upholstered areas or test an inconspicuous area before treating.

**NOTICE:** This product has been tested on several types of carpet, fabric, and other household furnishings without adverse effects. In a few instances, waxed surfaces have been whitened or dulled. Holding the can 36 inches away from the target surface normally prevents any whitening from occurring. Because of the wide variety of floor types and finishes, treat a small inconspicuous area before treating the entire area. Avoid contact with antique finishes.
